

NANCY K. BROWN

The Microbes *Stop* Here!

First Aid Solution for Fungal-Prone Fingers, Toes & Feet

NANCY K. BROWN

FORMULA

brush on /  
spray on solution

NANCY K. BROWN

The most active & cost effective holistic, organic and natural anti-microbial agent for finger / toe nails, cuticles, skin and feet prone to **fungal infection** available anywhere today - **including athlete's foot** !

This highly effective natural formulation contains *Undecylenic Acid* which helps prevent fungus from effectively metabolizing fatty acids essential to fungal growth and survival. Also helps reduce excess moisture trapped between nail and nail bed to help prevent bacterial and fungal growth.

- safe - non evasive, natural topical solution
  - recognized by the body, not treated as alien, thus allowed to do its work.
  - non irritating to the skin or cuticles
- quick drying and non-oily
- **high potency**
- **multi-active**
- use with - manicures (finger nail & cuticle fungus)
  - artificial nails, wraps, gels, acrylics
  - pedicures (toe nails and athlete's feet)
- can be used after artificial nail products and polish already applied - no need to remove nail polish
- helps keep nails, cuticles, skin & feet clean, healthy and conditioned. Does not discolor nails nor skin
- easy to use, simply brush around cuticle and open edge of nail, or spray on feet
- fast acting, quick results
- **available in brush-on or spray-on**
- non-allergenic - color and fragrance free
- can be used with diabetic and liver problems

NANCY K. BROWN
